

Computer Use and Time Management Contract

As a child interested in having access to our computer I am aware that there are guidelines that need to be in place in order for my parents to direct my leisure activities in a manner that will lead to constructive use of my time. If I am given permission to use the computer I agree to respect and adhere to the following guideline:

I. I understand that there will be a time limit set on my computer game usage. I understand that the time does not accrue or carry over into the next time period. I agree to follow the time limit as set forth by my parents as follows:

Hours per (Day/Week/Month)

II. I understand that extended time on the computer is not a constructive way to manage my time.

III. I understand that my computer use for games is to remain separate from school use and agree to keep them separate.

IV. I understand that constructive use of my computer time reduces the length of required time to complete typical school assignments and as a result of this understanding agree to complete all my school requirements in the allotted time as set forth by my parents:

Hours per (Day/Week/Month)

V. If I have a school requirement that may demand additional computer time I agree to talk with my parents to determine how much, if any, and agree to respect the decision set forth by my parents.

VI. I understand that if I violate any of these guidelines then my computer use will be terminated for a period of time as determined at my parents sole discretion.

VII. I understand that if my parents determine to terminate my computer use it may or may not include usage for school assignments and agree to respect their decision.

VIII. My signature below acknowledges that I fully understand these guidelines and agree to respect and adhere to them.
